Prompt Engineer

How has technology changed your daily routine?

# Legal work - from paper to digital

The assumption is that the entirety of an attorney's attention is dedicated to intense legal work

Ideal Attorney Capacity

100%
High-value legal work

Reality is that everyone and everything is vying for an attorney's attention

Competing priorities erode an attorney's capacity, devastating productivity

Actual Attorney Capacity

40% High-value legal work

25% Calls, texts, emails, drop ins, administrative burden

15% Soccer games, recitals, vacations, family events

15% Administrative, marketing, etc

5% Where should we go to dinner?

Every interruption restarts the clock

The result is long hours, turnover, burnout, missed deadlines and bad case results
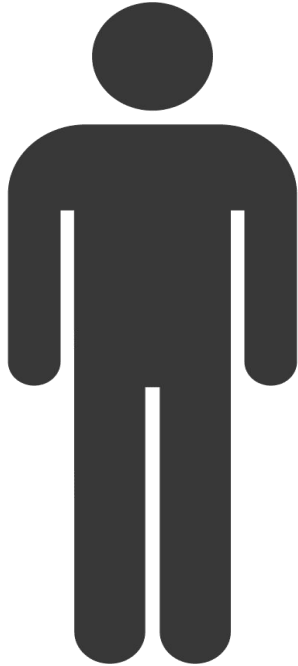

Enter AI

Change the culture at work, home and your social life   **or**   **Incorporate AI into a unified system of record to dramatically reduce context and attention switching**

Attorney 1

Attorney 2

AI in the billable hours model

Future trends

- **More predictive analytics**
- **Customized agents**
